

12-month Enrollment 2023-24

Institution: CUNY Brooklyn College (190549)

User ID: P1905492

Overview

12-month Enrollment Overview

The 12-month Enrollment survey component collects unduplicated student enrollment counts and instructional activity data for an entire 12-month period. Using the instructional activity data reported, a full-time equivalent (FTE) student enrollment at the undergraduate and graduate level is estimated (4-year institutions only). Institutions with Doctor's - professional practice students will also report the FTE enrollment of those students (4-year institutions only). NCES uses the FTE enrollment to produce indicators such as expenses by function per FTE as reported in the IPEDS Data Feedback Report.

Data Reporting Reminder:

- All institutions must use the July 1 - June 30 reporting period.
- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.

Changes in reporting

The following changes were implemented for the 2023-24 data collection period:

- Rephrased "remedial education" terminology in survey materials to "developmental education," including Glossary terms
- Rephrased "dual enrolled students" terminology in survey materials to "high school students enrolled in college courses for credit"
- Added new Part C to collect counts of high school students enrolled in college courses for credit
- Revised survey materials related to Gender Unknown or Another Gender enrollment reporting in Part A, including non-reporting for small cell size
- Added FAQ regarding including incarcerated students in for-credit enrollment reporting
- Revised FAQ regarding enrollment reporting for degree-seeking students who were previously enrolled as non-degree-seeking
- Revised FAQ with an additional note about verification of F-1 visa status for undocumented and DACA students
- Added a note to Instructions regarding distance education enrollment reporting to ensure consistency with Fall Enrollment (EF) reporting
- Revised text and organization of Instructions regarding instructional activity and full-time equivalent enrollment (Note: no changes were made to methodology or reporting guidelines)
- Revised FAQ for clarity regarding reporting the estimate of full-time equivalent (FTE) students
- Added FAQ regarding experimental site participants

Undergraduate Instructional Activity Type

Which instructional activity units will you use to report undergraduate instructional activity?

- Undergraduate instructional activity data in Part B may be reported in units of clock hours or credit hours.
- Please note that any graduate level instructional activity must be reported in credit hours. (4-year institutions only)

- Clock hours
- Credit hours
- Both clock and credit hours (some undergraduate programs measured in clock hours and some measured in credit hours)

 You may use the box below to provide additional context for the data you have reported above. Context notes will be posted on the College Navigator website. Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out acronyms).

Part A - Unduplicated Count for Full-time Undergraduate Students

12-month Unduplicated Count by Race/Ethnicity and Gender - **Full-time Undergraduate** Students

July 1, 2022 – June 30, 2023

Reporting Reminders:

- The 12-month unduplicated count must be equal or greater than the corresponding prior year fall enrollment.
- Report Hispanic/Latino individuals of any race as Hispanic/Latino
- Report race for non-Hispanic/Latino individuals only
- Even though Teacher Preparation certificate programs may require a bachelor's degree for admission, they are considered subbaccalaureate undergraduate programs, and students in these programs are undergraduate students.

Part A - Gender Unknown or Another Gender than Provided Categories

12-month Unduplicated Count by Gender Unknown or Another Gender than Provided Categories

- The 'gender unknown' category is to report students for whom the institution does not know a gender.
- Institutions should not ask students that do not select a binary gender to allocate themselves to a binary gender category; it is up to the institution to allocate unknown students and students that indicate another gender into the binary categories throughout the forms where required. One method commonly used by institutions is to allocate these students to the binary categories required in other parts of the form using the proportion of men to women reported.

Is your institution able to report **another gender** for the 2023-24 data collection?

If you indicate 'No, my institution does not collect data on another gender,' leave the cells in the rows for '**Another gender**' blank (i.e., do not report 0). If you indicate 'No, some cells will have a value of less than 5 students,' your institution collects data on another gender, but some cells have a value of less than 5 students, do not report the data and leave the cells in the rows for 'Another gender' blank. If you indicate 'Yes', but no students identified as another gender, please enter '0'.

Undergraduate students:

- Yes
- No, some cells will have a value of less than 5 students (do not report)
- No, my institution does not collect data on another gender

Graduate students:

- Yes
- No, some cells will have a value of less than 5 students (do not report)
- No, my institution does not collect data on another gender

Of the total students reported, how many students did you allocate to a binary gender category (Men/Women) because their gender was unknown or another gender than the provided categories?

Part B - Instructional Activity

12-month Instructional Activity

July 1, 2022 - June 30, 2023

Instructional Activity Reporting Reminder:

- Instructional activity is used to calculate an IPEDS FTE based on the institution's reported calendar system.
- Graduate credit hour activity should not include any doctor's – professional practice activity, the total of those students' FTE is entered separately instead.

FTE Reporting Reminder:

- Institutions need not report their own calculations of undergraduate or graduate FTE unless IPEDS FTE calculations would be misleading for comparison purposes among all IPEDS reporting institutions.

Instructional Activity

	2022-23 total activity	Prior year data
Undergraduate level:		
<u>Credit hour activity</u>	298,386	339,657
Graduate level:		
<u>Credit hour activity</u>	43,471	44,360

---	----------

If the IPEDS calculated FTE estimates below are not reasonable, **AND** you have reported the correct instructional activity hours above, enter your best FTE estimate in the "Institution reported FTE" column below and save the page. This option should be used **ONLY** if the calculated estimate is not reasonable for your institution and IPEDS comparisons.

Please provide your best estimate of undergraduate and graduate FTE for the 12-month reporting period **only if the calculated FTE estimate below is not reasonable for IPEDS comparison purposes**. Please provide an explanation in the context box if the option is used due to Coronavirus Pandemic.

	Calculated FTE 2022-23	Institution reported FTE 2022-23	Prior year FTE 2021-22

Total FTE students	11,757	11,757	13,170

 Context notes will be posted on the College Navigator website. Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out acronyms).

Part C – Unduplicated Count of Dual Enrolled Students

12-month Unduplicated count of dual enrolled students

July 1, 2022 – June 30, 2023

- The number of high school students enrolled in college courses for credit was reported in Part A as part of the non-degree/non-certificate-seeking unduplicated enrollment.
 - The number of high school students enrolled in college courses for credit reported in Part C will have some duplication with the non-degree/non-certificate-seeking enrollment students reported in Part A.
 - The number of high school students enrolled in college courses for credit reported in Part C should be less than the number of non-degree/non-certificate-seeking students reported in Part A unless all these students at your institution are high school students enrolled in college courses for credit.
- Report Hispanic/Latino individuals of any race as Hispanic/Latino
- Report race for non-Hispanic/Latino individuals only

In Part A, your institution reported the following number of students in the non-degree/non-certificate-seeking unduplicated headcount.	1,739

Summary

12-Month Enrollment Component Summary

The purpose of this summary is to provide you an opportunity to view some of the data that, when accepted through the IPEDS quality control process, will appear on the [College Navigator](#) website and/or your institution's Data Feedback Report (DFR). In addition, all data reported in IPEDS survey components become publicly available through the [IPEDS Use the Data](#) and appear as aggregated statistics in various Department of Education reports. [College Navigator](#) is updated approximately three months after the data collection period closes and DFRs will be available through the [IPEDS Use the Data](#) and sent to your institution's CEO at the end of 2024.

Please review your data for accuracy. If you have questions about the data displayed below or after reviewing the data reported on the survey screens, please contact the IPEDS Help Desk at: 1-877-225-2568 or ipedshelp@rti.org.

Upload File	The number of Gender unknown (51) of undergraduate students is outside the expected range when compared with the data reported by your institution in the prior year. Please correct your data or contact the IPEDS Help Desk for assistance. (Error #9235)	Explanation	Yes	
Reason	Last year was the first time we allowed gender to be unknown. It grew naturally as it was an option.
