Equity in Athletics Disclosure Act: sports program information

The information needed to respond to Question 22 and 23 below comes directly from the Equity in Athletics Disclosure Act (EADA), which was completed by your institution by October 15, 2002. Note: This EADA report represents the 2001-2002 academic year data.

Fall Semester 2001 Enrollment from Equity in Athletics Disclosure Act

22. Fall semester 2001 full-time undergraduate, baccalaureate, degree-seeking enrollment.

What was the **total full-time, baccalaureate, degree-seeking enrollment** at your institution in the fall 2001 semester? This data for Q. 22 comes directly from the enrollment box at the beginning of the Equity in Athletics Disclosure Act which was completed by your institution by October 15, 2002.

Note: Undergraduates are full-time, baccalaureates, degree-seeking students

Number of undergraduates	Number	Percent of total undergraduates
Male undergraduates		%
Female undergraduates		%
Total undergraduates		%

ATHLETICS PARTICIPATION statistical profile

This data needed for Q. 23 is from Table 1--ATHLETICS PARTICIPATION; Number of Participants; Column 1 Men's Teams and Column 2 Women's Teams of the Equity in Athletics Disclosure Act that was completed at your institution by October 15, 2002 and represents sports participation for the 2001 - 2002 academic year.

23. In the box below please report the following Athletic Participation data.

- \* The Total Men's Team Participants and Total Women's Team Participants.
- \* The Percentage of Participants in Men's Teams and Women's Teams
- \* The Unduplicated Count of Participants in Men's Teams and Women's Teams

24. Men's Intercollegiate Varsity Sports Profile

**Instructions:**

The following section gathers data on Intercollegiate varsity men's sports in which your institution participated in 2002-2003 and 2001-2002 academic year, offered athletic scholarship in 2002-2003 and its win and loss record during the year ended June 30, 2002.

**How to use this grid.**

Please answer for each men's sports in each row. If a sport isn't listed it can be added at the bottom of the grid. If a sport is NOT played during the current 2002-2003 academic year and the 2001-2002 academic year, then answer No to both questions in the Intercollegiate Varsity Sports played section and go to the next sport, leaving the rest of the line blank.

If a sport WAS played in 2001-2002 and is currently NOT being played in the 2002-2003 academic year, THEN click on the No button for Intercollegiate Varsity Sports played during the 2002-2003 academic year and the Yes button for sports being played in the 2001-2002 academic year, skip the Athletic Scholarship column and fill out the Team Record number of wins and losses column for the 2001-2002 academic year.

If a sport was played in 2001-2002 and is currently being played in the 2002-2003 academic year, then answer Yes for both years in the Intercollegiate Varsity Sports played column and fill out the entire row for that sport including the Athletic Scholarship offered column and Team Record number of wins and losses column for the 2001-2002 academic year.

For example, if you had intercollegiate men's basketball in the 2002-2003 and 2001 - 2002 academic year, then mark Yes in the 2002-2003 and 2001-2002 academic year in the basketball row column in the Intercollegiate Varsity Sports played section. If you offered an athletic scholarship in men's basketball in 2002-2003, then put an X in the Yes column in the athletic scholarship column in basketball. Then in the same basketball row enter the actual number of wins and losses for the basketball team in the 2001 - 2002 academic year. For example if your 2001 - 2002 academic year men's basketball record was 16 wins and 14 losses, then put 16 in the Wins column and 14 in the Losses column (only report dual meets wins and losses).

**Important note:**

Fencing, Gymnastics, Riflery, Skiing, Swimming & Diving, Track & Field Indoor, Track & Field Outdoor, Wrestling, Cross-country, Golf, Rowing and Tennis are sports that are predominately based on tournaments or multi-team meets and not dual meets. We will not be collecting won and loss records for those sports. U.S. News will use the results from the NCAA tournaments held in those sports in the year ending June 2002 to create a tournament ranking.
