

Microcredential: Promoting Active Learning Online

ACUE's microcredential course **Promoting Active Learning Online** will provide faculty with practices to more actively engage students in varied learning formats including group activities, discussions, and microlectures. The microcredential features the same evidence-based pedagogy outlined in ACUE's Effective Practice Framework.

Offered in collaboration with institutional partners, these courses are an ideal way to expand the impact of institutional programs and promote effective online instruction that leads to stronger student outcomes.

Gain proven active learning techniques to engage students, plan and facilitate discussions, and more—in the online learning environment.

Modules in this microcredential include:

- ▶ **Developing Effective Modules and Microlectures**
- ▶ **Teaching Powerful Note-taking Online**
- ▶ **Using Groups to Ensure Active Online Learning**
- ▶ **Using the Active Learning Cycle in Online Courses**
- ▶ **Planning Effective Online Discussions**
- ▶ **Facilitating Engaging Online Discussions**

Faculty who complete all microcredentials earn the full ACUE Certificate in Effective College Instruction, endorsed by the American Council on Education (ACE).
