

NYC Compost Project hosted by Brooklyn Botanic  
Garden, BC Garden and Campus Sustainability

# Composting Workshop

Tuesday, October 29<sup>th</sup>, 2019  
12:15-2pm

**Join Us at the BC Garden to learn the basics of composting.**

Compost is organic material that can be added to soil to help plants grow. Making compost keeps 30 percent of what we throw away out of landfills, reduces the need for chemical fertilizers, and lowers our carbon footprint.

*The Brooklyn College Garden is located on western edge of the college campus, near the public safety gate at Campus Road and Avenue H.*
