Please give street children a fighting chance!

### **LES PETIT OKAPIS:**

#### **What our organization is about**

**Street children:** they exist in many parts of the world, where war and poverty have left their families unable to support them. In the city streets where they live, these children barely survive.

**While stationed** for our work in Africa, Asia and the Caribbean we observed the very difficult situation of street children, and we decided to help.

**Instead of** begging in the streets for food and drifting into vandalism, vagrancy, theft, prostitution and other crimes, we want to see these kids become full-fledged, productive members of society.

**As of today,** Les Petits Okapis International has 4 students in their first year of University and has sent over 30 children to school, and three of them are graduating shortly from high school. Thanks to donations from friends and family, we have been able to provide these children with school fees, uniforms, supplies, food and clothing.

**Better yet,** during a period of 3 years we were able to find a member of each of their families. The children now are all back with either their parents or another family member. It benefits the children enormously to be in their own family setting.
