

Celebrating the Culture, Music, and Scenic Beauty of Sicily

An Audio-Visual Presentation by Lou Barrella

This presentation will explore the diversity of cultures which make up the complexity of Sicily. Musical examples will be drawn from classical, folk, and operatic sources. The vocalizing will run the gamut from the sublime to the ridiculous. Poetic samples will demonstrate both philosophical and humorous expression, as well as the individuality of the Sicilian language. The photographs and video examples will cause inspiration, awe, and a desire to visit this ancient land. Expect to listen, look, and participate in our celebration of "*Sicilia Bedda!*"
