the Brooklyn College Coffee Collective, and the Student Sustainability Group,
presents*

Coffee Talk The Carbon Footprint of Coffee

A presentation and discussion with Dr. Sterling on the carbon footprint of coffee. Coffee to be served by the Brooklyn College Coffee Collective.

Brooklyn Coffee Collective is a student founded and student-run coffee shop and collective. Started in the Spring of '09 by Student Union members and opened in the Spring of 2010, we serve the Brooklyn College community and its surrounding neighborhoods some of the best tasting coffee around. All of our beans are ethically sourced and come from small farms in partnership with our distributor, Counter Culture Coffee.

Eleanor J. Sterling is the director of the American Museum of Natural History Center for Biodiversity and Conservation (CBC), where she oversees all aspects of the center's operations. Sterling is also director of Graduate Studies for the Department of Ecology, Evolution, and Environmental Biology at Columbia University. Among her books are *Vietnam: A Natural History*, co-authored with colleagues at the CBC; *Remote Sensing for Ecology and Conservation*, edited with CBC colleagues and J. Robinson, W. Turner, and S. Spector; and *Problem Solving in Conservation Biology and Wildlife Management: Exercises for Class, Field, and Laboratory*, edited with J.P. Gibbs.

Tuesday, March 09, 2010
3:00 p.m. to 4:30 p.m.
The Wolfe Institute
2231 Boylan Hall
