The Scholars Program
The Scholars Program at Brooklyn College

Through small classes, faculty mentoring, research and internship opportunities, and a vibrant, close community of students and alumni, The Scholars Program at Brooklyn College instills in students the values, skills, and knowledge to realize their academic, professional, and personal goals. Scholars is committed to the idea of a liberal arts education through which students think and learn across disciplines, freeing the mind to its fullest potential. The essence of such an education is not what you study but the result: gaining the ability to think critically and independently and to write, reason, and communicate clearly—the foundation for all professions.

Students in The Scholars Program major in an academic subject of their choice, take honors sections of Pathways courses, and earn honors credit for regular courses through independent study projects. They take a choice of interdisciplinary seminars created exclusively for Scholars students. They write a senior thesis based on a yearlong research project and, upon graduation, receive "Honors Academy Graduate" certification on their transcript and diploma. They have access to the Academy's computer facilities and priority registration, and are offered the chance to take part in community events including Theater Night excursions and common hour activities. They receive support from two Scholars Advisors who provide guidance in planning academic programs, pursuing internships and study abroad opportunities, attaining scholarships, and clarifying graduate school and career goals.
