

## STUDY ABROAD PROGRAM COST COMPARISON SHEET

**Instructions:** Review carefully the costs of each of the programs you are considering. Complete the table below, a column for each program. If there is no CUNY tuition charge required, put an N.A. in the appropriate box. If there is a program fee, then note the program fee at the beginning of the column and place a check mark in each row for the cost covered by the program fee. If an item is not completely covered, then add the uncovered but necessary expenditure to the (partial) expenses section. After noting the amount of all the expenditures, also note the amount of financial aid and/or scholarships and subtract from expenditures to know how much you will need to pay for the estimated program cost.
