

ENGINEERING CLUB

Engineering Club Goals:

- The engineering club is here to help educate students about the different fields of engineering and the coordinated engineering program at Brooklyn College
- Arrange for events that will promote discussions, talks, and forums amongst prospective engineering students
- Gain insight into what becoming an engineer is all about

MEET

Professionals who will discuss the experiences and challenges that they faced in their careers as engineers.

EXPLORE

The NYU Tandon School of Engineering and all the opportunities it has to offer.

LEARN

About the latest software and other technology that engineers in the field use today.

There Will Be Food!
