

## THE BROOKLYN COLLEGE ENGINEERING CLUB

We will be providing an interactive workshop in

# *COMPUTER AIDED DESIGN*

Join us for an interactive CAD workshop with BC alum,  
Baruch Shadroutz!

Computer Aided Design, better known as CAD is the  
usage of computer modelling software to create  
designs and blueprints for projects.

### Some benefits of learning cad:

- Proficiency in CAD is a frequently utilized skill for engineers.
- Many internship programs require some foundational CAD knowledge.
- CAD allows you to create your own drawings, which helps ideas come to life.
- Computer aided design is useful in many disciplines, ranging from interior design to architecture.

Interested in learning  
CAD?

Join us for a  
workshop

### WHERE:

Library

Room 383

### WHEN:

March 13

1:00-2:30
