edTPA Assessment Materials Version Chart for September 2018

Beginning September 2018, all edTPA national assessment materials (with the exception of Elementary Education) will have a version number in the title and footer: "Version 0X" (version numbers vary by assessment and assessment material). Handbooks, templates, and candidate support resources will no longer be identified by a month and year (e.g., "September 2017," "0917") in the title and footer. Elementary Education and Washington assessment materials for 2018–2019 with version numbers will be available to candidates October 2018.

In general, candidates should use the assessment materials that are currently available in their edTPA portfolio system (provided by the program, edTPA.com, or their ePortfolio platform provider).

- Candidates who have already made significant progress building their edTPA portfolios with the previous year’s handbooks and templates may continue to use and submit that version.
- Starting in September 2018, candidates building their edTPA portfolios for 2018–2019 submission should use the assessment materials for their subject area as indicated in the chart below:
