General Elective General Elective	3
CREDITS	15

60 TOTAL CREDITS

<i>Comprised of:</i>	
6 credits	College Option
39 credits	Business Admin
15 credits	General Elective

This two-year degree map is designed for transfer students from Kingsborough Community College who have already completed an AS degree in Business Administration, who are entering Brooklyn College with 60 total transfer credits, and are continuing in the similar major of Accounting BS. It is not meant to replace individualized advisement from the Accounting Department. Rather, it is meant to outline an ideal sequence of courses to help students customize their academic plan, and stay on track for graduation.

For courses requiring permission of the chairperson as a prerequisite, permission should be obtained before registration. The department Chair, with the approval of the Chair of the department's undergraduate curriculum committee, may allow substitutions for one or more of the requirements consistent with the educational goals of the program. A minimum of 15 credits of advanced Accounting courses must be completed at Brooklyn College with a grade of C or higher in each course.

Students are strongly encouraged to meet with an advisor in the Accounting Department to discuss course selections and sequence in relation to their record and goals. For transfer students, recommendations for use of the degree map will vary based on their specific record and circumstances. Therefore, it is best to review your academic plan with an advisor on a regular basis. Also, please check Transfer Explorer (<https://explorer.cuny.edu/>) to review and confirm your course equivalencies.

Department of Accounting
202 Whitehead Hall

Dov Fischer, Chair, dfischer@brooklyn.cuny.edu
Christina Fung, Senior Academic Advisor, cfung@brooklyn.cuny.edu
