

A low-angle photograph of the Brooklyn College clock tower, a tall brick structure with a white clock face and a white cupola on top. The tower is partially obscured by lush green trees on the left and right. The sky is a clear, bright blue with some lens flare effects. The text 'Brooklyn College' is written in a large, red, serif font, underlined. Below it, 'COMMENCEMENT' is written in a smaller, red, sans-serif font, also underlined. At the bottom, 'May 27, 2021' is written in a red, sans-serif font.

Brooklyn College

COMMENCEMENT

May 27, 2021

The Star-Spangled Banner (The National Anthem)

O say can you see, by the dawn's early light,
What so proudly we hail'd at the twilight's last gleaming?
Whose broad stripes and bright stars through the perilous fight
O'er the ramparts we watch'd were so gallantly streaming?
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there.
O say does that star-spangled banner yet wave
O'er the land of the free and the home of the brave?

Fanfare and Alma Mater

On campus green, with towers of marble
Lifting white spires in air.
Oh, Brooklyn is our Alma Mater,
And she is wondrous fair.
Within the gray halls ever lit,
The lamps of learning burn,
And ever on to goals of glory
Young eager spirits yearn.

Traditional Tune, Arranged by Malcolm J. Merriweather

Words by Robert Friend, Class of 1934

Message From the President

Congratulations on graduating from Brooklyn College, Class of 2021!

Today is a day to celebrate the great determination, knowledge, and ambition that brought you to this moment. I am proud of you. Your family and friends are proud of you. And the staff and faculty at Brooklyn College are proud of you.

Each of you spent more than a year overcoming the life-changing obstacles brought on by both a global pandemic and tremendous social upheaval.

You have persevered to obtain your college degree during one of the most challenging time periods that many of us will experience in our lifetime. You stayed strong and rallied. You made it.

And with your Brooklyn College degree, you join a network of more than 160,000 alumni around the world whose successes are rooted in a legacy of intellectual rigor, respect for diversity, and global citizenship. Many thanks and appreciation to the alumni, trustees, distinguished guests, staff, faculty, family, and friends who have joined together today to applaud you.

Our very best wishes to each of you in all your future endeavors. Cheers to the Class of 2021!

A handwritten signature in black ink, which appears to read "Michelle J. Anderson". The signature is fluid and cursive, with a large, sweeping flourish at the end.

Michelle J. Anderson

President

Message From the President of the Brooklyn College Alumni Association

Congratulations, Class of 2021!

Your dedication, perseverance, and resilience during these unprecedented times have paid off. With an invaluable Brooklyn College education and a wealth of unique experiences, you are well-equipped for this new beginning. I know you will go far.

It is my distinct honor to welcome you to the Brooklyn College Alumni Association (BCAA), an exceptional community with over 160,000 members. With the support of the Office of Alumni Engagement, the BCAA aims to keep you connected to each other and our alma mater. As esteemed members, you will continue to hear from us about ways to stay connected and engaged.

Congratulations again on your graduation from Brooklyn College. We are proud to celebrate you and excited to see you take off into the world. Welcome to our alumni family!

Valedictorian

Asma Awad is the valedictorian of the Brooklyn College Class of 2021. When Awad arrived at Brooklyn College in 2017, she was in awe at the variety of majors, minors, and concentrations available. At the time, the 21-year-old Brooklyn native was coming up on her fifth year working at the Brooklyn Botanic Garden,

where she had been recently promoted to program assistant. Working there had made her consider possible careers in education and environmental science.

Despite her love for daily tasks such as performing bacteriological water analysis and teaching children horticultural skills, Awad was curious to explore what different fields of study had to offer. At the end of her sophomore year, she decided to take an introductory computer science course at the recommendation of a friend. Awad found herself enjoying the assignments and looking into tech-related resources in her free time, fascinated at the ways that technology was intertwined with so many other disciplines.

Introduced to the tech world through training with Girls Who Code—a nonprofit organization that works to increase the number of women in computer science by equipping young women with computing skills—Awad sought out more industry experience through internships, accepting three in the next two years. She was also selected to join a technical training program, CUNY Tech Prep, where, in addition to learning in-demand tools and technologies, she represents Brooklyn College as one of two student ambassadors.

Drawing on her faith, Awad was quick to join the Brooklyn College chapter of the club Muslims Giving Back. Open to students of all faiths and backgrounds, the group engages in community service, such as crafting hygiene kits and care packages for people in shelters. The members also participate in Charity Week, an annual event during which the club raises money for various causes, including installing rainwater harvest systems and rebuilding schools around the world. Awad's participation in the club has allowed her to make an impact while building a sense of community with other Brooklyn College students.

Awad has participated in research dedicated to creating online environments that are more accessible to people with disabilities. She is extremely thankful to Assistant Professor of Computer

and Information Science Devorah Kletenik, who gave her the opportunity to work on a semester-long project that focused on developing games that teach Internet accessibility in computer science courses.

After graduating with a 4.00 grade point average and a B.S. in computer science, Awad will work as a software engineer at JPMorgan & Chase Co. Outside of classes and work, Awad has worked on a couple of her own projects as well, her favorite being NaturAlly, a virtual reality program designed to simulate an outdoors experience for children who face a lack of outdoor exposure due to hospitalization.

Please join us in congratulating Asma Awad on her graduation and selection as the valedictorian of the Brooklyn College Class of 2021. We wish her success in all of her future endeavors.

Distinguished Alumna

Dr. Joanne Waldstreicher, M.D., is the chief medical officer at Johnson & Johnson. In her role, she has oversight of pharmaceuticals, devices, and consumer products in the areas of safety, ethical science, and technology and R&D policies, including those related to clinical trial transparency and compassionate access. Dr.

Waldstreicher chairs the R&D Development Pipeline Review Committee for Janssen Pharmaceutical Companies of Johnson & Johnson, and also supports the Medical Devices and Consumer Development committees.

Throughout her career, Dr. Waldstreicher has been driven by a passion for making a difference in the world through science. As a scientist and physician working in industry, she came to understand and truly appreciate the importance of keeping patients and consumers at the center of decisions related to medical safety. Over the course of her 30-plus-year career, she has watched the medical world shift, with significant changes in the way patients participate in their own health care. In the past, many physicians made decisions for their patients, in some cases without an understanding of the patient's perspectives or preferences. That approach has since given way to today's norm of patient-centric decision-making and engagement: doctors and patients reviewing options, analyzing benefits and risks, and making decisions together.

In 2013, this understanding inspired Dr. Waldstreicher to take a different approach to product safety by creating the Johnson & Johnson Office of the Chief Medical Officer, or OCMO. The OCMO is an internal—but functionally independent—group within J&J that takes a patient-centered approach to advancing evidence- and science-based decision-making grounded in bioethical principles and values. By being functionally independent, not only of commercial but also of regulatory, legal, quality, and even R&D, the OCMO can make the tough decisions about the safety of J&J's products, always keeping the best interests of patients and consumers at the center.

Before joining Johnson & Johnson in 2002, Dr. Waldstreicher was head of endocrinology and metabolism clinical research at Merck Research Laboratories, where she oversaw innovations in atherosclerosis, obesity, diabetes, urology, and dermatology. Prior

to her career in industry, Dr. Waldstreicher graduated cum laude from Harvard Medical School in 1987, completed her internship and residency at Beth Israel Hospital in Boston, and completed her endocrinology fellowship at Massachusetts General Hospital.

Dr. Waldstreicher's decision to leave academic medicine was inspired by the realization of impactful research conducted by industry, that aims to make transformational differences in people's health. By working in industry, she has had the opportunity to help millions of people around the world. Still, Dr. Waldstreicher appreciates the direct personal relationships that are uniquely possible through clinical care. She currently volunteers as a vaccinator in one of the local county vaccination clinics.

A recipient of both the Jonas Salk and Belle Zeller scholarships from the City University of New York, Dr. Waldstreicher graduated from Brooklyn College in 1981 summa cum laude, Phi Beta Kappa, Sigma Xi, and as a Presidential Scholar. Dr. Waldstreicher is a trustee of the Brooklyn College Foundation, and serves on the advisory board of the recently launched Brooklyn College Cancer Center. She is also a faculty affiliate of the Division of Medical Ethics, Department of Population Health, New York University School of Medicine. In 2016, the National Association of Female Executives named her Healthcare Champion of the Year. Dr. Waldstreicher combines broad experience in science and medicine with a passion for advancing transparency and ethics, with a goal of making a difference in the world.

In recognition of her work in advancing transparency and ethics, with a goal of improving the lives of patients and consumers worldwide, Brooklyn College presents Dr. Joanne Waldstreicher with the Distinguished Alumna Award.

**Honorary Doctor of Humane Letters,
Keynote Speaker**

Fatima Goss Graves, the president and CEO of the National Women’s Law Center (NWLC), has been an outspoken advocate for the rights of the oppressed since joining the staff of the NWLC in 2005. Her tireless work on the front lines of the legal battles for women’s equality, whether it be for pay equality, health care,

fighting sexual discrimination, securing reproductive rights, Title IX enforcement, championing the rights of trans people, and especially in protecting and enhancing the rights of low-income individuals, has resulted in significant and lasting progress.

A graduate of UCLA, Goss Graves received her B.A. in 1998 and her J.D. from Yale Law School in 2001. She worked as a clerk for the Honorable Diane P. Wood of the U.S. Court of Appeals for the Seventh Circuit, and then as a litigator for the New York City law firm of Mayer Brown.

Upon joining the NWLC in 2005 as vice president for education and employment, Goss Graves led the center’s anti-discrimination initiatives, including work to promote equal pay, and addressing harassment and violence at work and in school, with a particular focus on outcomes for women and girls of color. Before becoming president and CEO, she served as NWLC’s senior vice president for program.

Goss Graves is among the co-founders of the TIME’S UP Legal Defense Fund created in early 2018 to support lower-income women seeking justice for sexual harassment and assault in the workplace. TIME’S UP raised more than \$24 million in its first year of existence, created 18 major outreach grants, and committed to helping fund 174 legal cases.

Goss Graves is recognized for her effectiveness in the complex public policy arena at both the state and federal levels and regularly testifies before Congress and federal agencies. She is a frequent speaker at conferences and other public education forums. Goss Graves also appears as a legal expert on issues core to women’s lives in *The New York Times*, *The Wall Street Journal*, *The Washington Post*, *AP*, *Chicago Tribune*, *Los Angeles Times*, *San Francisco Chronicle*, *CNN*, *MSNBC*, *PBS*, and *NPR*, among others.

In recognition of her contributions to the legal profession; for standing up for women’s rights and against violence against women; and as a skillful and successful defender of equality and fairness, Brooklyn College awards Fatima Goss Graves the Honorary Doctorate of Humane Letters.

The Board of Directors of the Brooklyn College Alumni Association

The Brooklyn College Alumni Association and the Office of Alumni Engagement provide services and programs for Brooklyn College alumni. These include the support of educational and social programs for regional chapters, classes, professional and cultural affiliate groups, and the issuing of ID cards that enable alumni to use selected resources of the college.

The Brooklyn College Alumni Association provides a lifelong association between Brooklyn College of the City University of New York and its alumni by supporting the mission, students, faculty, and programs of the college. The primary charge of the Alumni Association is to foster, maintain, and enhance the alumni connection to the college by providing activities, services, and programs for regional chapters, graduating classes, and professional and cultural affiliate groups. Upon graduation, alumni begin a lifelong relationship with the college. Many participate as mentors, internship sponsors, and career advisers in programs designed to assist students while they are still in school.

Disclaimer

The names listed in this Commencement Program represent candidates for graduation for September 2020, December 2020, February 2021, June 2021, and September 2021. To have their names appear in this program, students must have filed notice with the Office of the Registrar by the communicated deadlines that they expected to complete all their academic requirements by either June 2021 or September 2021, which would enable them to participate in the May 2021 Commencement Ceremony.

The names of students who filed after February 15, 2021 (for June 2021 candidates), or March 15, 2021 (for September 2021 candidates), may not appear in this program. Students who believe they filed before their respective deadline dates, but do not see their names listed in the program, should contact the Office of the Registrar.

Every attempt has been made to publish an accurate record of the names of the graduates and of those receiving special recognition. It should be noted, however, that because of production deadlines, the program may contain some errors and/or omissions, despite all efforts to the contrary. The student names in this program appear as they do in CUNYfirst.

The listing of candidate names in this program is not verification of graduation. To confirm graduation, please contact the Office of the Registrar.

Due to the timing of publication, cum laude, magna cum laude, and summa cum laude honors are not listed for June 2021 or September 2021 baccalaureate candidates. Dean's List honors do not appear in this publication. Baccalaureate double majors are listed under their primary major only; minors are not listed.
