WHERE TO GET A FLU SHOT

The seasonal flu is a common but serious respiratory infection. Getting the influenza vaccine (flu shot) is the best defense. With COVID-19 continuing to spread in many parts of the U.S., getting a flu shot this year is critical to staying healthy.

Flu viruses evolve fast, so last year's vaccine may not protect you from this year's viruses. Call your doctor to make an appointment to get your flu vaccine. **If the vaccine is the only reason for your in-network visit, it's free.** Visit emblemhealth.com/flu for more info.
