2007-2008 PETITION TO USE PROJECTED YEAR INCOME

*Independent student and spouse.*

If you and/or your spouse’s current year income for the 2007 – 2008 academic year are less than your 2006-year income, you may request an income adjustment. If those changes result from circumstances such as the loss of employment, loss of untaxed income (Social Security benefits or Child Support) or disability/illness in family, separation, divorce or death then your Financial Aid officer can adjust the previously reported income on your FAFSA and will use your and/or your spouse’s projected income.

*Parent(s) of dependent student.*

If a dependent student’s parent(s) current year income is less than the year 2006, the student may request an income adjustment if the income changes are a result of the loss of employment, loss of untaxed income (Social Security benefits or Child Support), or disability/illness in the family, separation, divorce, or death resulting in decreased wages.

**Supporting Documentation for Income Adjustment:**

- Federal 2006 1040 Form(s)
- All 2006 W-2 Forms
- Date of termination of all employment or benefits
- Unemployment starting and ending dates
- Amount of benefits
- Total amount earned for 2006
- Personal letter: Signed statement itemizing income to date and projected income for the 2007/2008 year.
- Verification worksheet

Please bring or mail the above documents to the Brooklyn College Financial Aid office.

*Incomplete documents will delay processing of your financial aid.*
