Brooklyn College Healthy Teen Study

Are you 18-21 years of age?

Are you healthy?

Are you not receiving mental health treatment?

If you answered YES to these questions, you may want to learn more about a research program at Brooklyn College/CUNY assessing stress, mood and adjustment.

You will be administered questionnaires and an interview. We will ask questions about your possible experience of stress, worry, sadness and family history of depression. You will also undergo non-invasive laboratory tests, and possibly an MRI scan at Mount Sinai Medical Center. You will receive up to $55 for your time and effort. Reimbursement will be provided for transportation. This study does not involve provision of treatment.

For more information, contact the Brooklyn College Teen Study by phone at 718.951.5000 ext. 6070 or by email at bcteenstudy@gmail.com.

* Study locations are readily accessible via 2/3 and 4/5 subway lines
